

Student Field Placements At Rideauwood

Rideauwood offers field placement opportunities for students enrolled in counselling, social work, addictions, and other related programs. As one of the region's most experienced organizations supporting individuals and families affected by substance use and behavioural addictions, Rideauwood provides a rich learning environment grounded in evidence-based practice and compassionate care.

Students completing placements with Rideauwood gain valuable real-world experience by observing and supporting the work of our clinical teams, developing practical skills, and deepening their understanding of addiction, recovery, and community-based support services.

A field placement with Rideauwood offers the opportunity to learn in a supportive, collaborative environment while making a meaningful contribution to the wellbeing of our community.

During your placement you may have opportunities to:

Observe individual and group counselling

Learn evidence-based approaches to addiction treatment

Participate in team meetings

Develop clinical and professional skills

Gain experience in client-centred, trauma-informed care

Receive mentorship from experienced clinicians

Amanda Neilson (She/Her)

Manager of Clinical Practice
